Time: 7:00 – 8:30pm

Location: Discord Town Hall Voice Channel

Meeting Type: Community wide

Minutes taken by: Andrew Himelstieb, [Andrew - KFØUFO], andrew@denvermesh.org

1. Attendance

Present: # of Members: 20

Discord Nicks:

1. Andrew - KFØUFO
2. M2B2 - Nate
3. Strex
4. NV0N - Joey
5. dude.eth
6. JustTheOtherLife
7. Dani
8. rodneY
9. itiswhatitis
10. KD5IHC-megabear
11. KF0KIT
12. Nettle
13. cinder
14. GruffaloBill
15. WA4OSH-konrad
16. Steve - KB0OLF
17. CathodeFollower
18. NotSure
19. M3SHGHØST
20. droptables

Absent:

1. [I hate France] - John
2. littlecrab - Tyson
3. zeva

Staff: Nettle, NV0N-Joey, Strex, M3SHGHØST

2. Call to Order : [M2B2-Nate]

Action: Meeting called to order at [19:02]

3. Approval of Previous Minutes

Motion: [M2B2 - Nate] moved to approve minutes from [Sat Feb 7th 2026].

Seconded: [Andrew-KF0UFO].

Outcome: [Approved].

4. Executive & Committee Reports

- None, as this is a general community meeting.
- Treasurer's Report: [Donation summary provided in Spreadsheet to Leadership].
 - Acknowledged from Leadership present [Yes]

5. Old Business

- Motion moved by [M2B2] for any Old Business matters
 - [None]

6. New Business

- Motion by chair of meeting [M2B2- Nate] for Agenda
- Agenda created in preparation of Meeting by [M2B2]
 - located in DenverMesh GitHub repo: [Agenda for Feb 28 Meeting](#)

7. Discussion of Agenda Items [Meeting followed agenda]

- Dani: what requirements are needed for the Ryan Larkin Race
 - Meshtastic node placements
 - volunteer lent equipment and operated in Teams
 - 62 Mile, 3 day race
 - [Ryan Larkin Invitational Adventure Race](#)
 - June 12-14 Montrose, CO -to- Telluride, CO
- Organizational activities, general discussion
 - Overland Expo - details provided by Strex
 - <https://www.overlandexpo.com/mtn-west/>
 - off-roading community
 - great market to introduce people to mesh networking
 - off grid communications needed in overlanding opportunities
 - <https://rockymountainreprapfestival.com/> -Dani
 - 3D maker convention,
 - Dani has table at convention and invited any members to join him and spread the word about DenverMesh

- Thoughts and plans for future
 - Organization Name change
 - Poll Setup in #polls channel [pinned in channel by KFØUFO]
 - 2 main suggestions: ColoradoMesh or Rocky Mountain Mesh
 - website updates
 - Call for help to create explanation content for MeshCore & Reticulum webpages
 - Discord topic closed for now
- Placements of nodes not covered during meeting
- Mention the DenverMesh GitHub repo
 - GitHub sponsors created
 - Donation Portal
 - OpenCollective
 - There has been many mentions of this lately, and the leadership & community seems to be in consensus in creating an account for the group
- Steve-KB0OLF - castle rock repeater group, putting us under one of his umbrellas?
 - Steve has resources for creating:
 - Stickers, Decals, Key chains, Badges, Mugs, really anything you can think of in terms of promotion materials
 - Volunteered his time & resources, up to cost of materials
 - Would be great for events community members may volunteer at, or attend, or passing out at school presentations/meetings
- Education Outreach
 - Should be a main focus of the community
 - Hackerspaces / Makerspaces
 - Local School Districts & Colleges
- dude.eth - not playing favorites... more community effort to evolve education opportunities
- KF0KIT- Alongside infrastructure, finding utility to provide the mesh. Its great to have infrastructure, and even if messages go across the state, but if its dead, or provides no utility, then that may drive people away too
- M2B2-Nate - DenverMesh (or whatever the name change will be) not responsible for **guerrilla nodes**, and any **criminal activity** and we don't want people showcasing or discussing these things in our community
- rodneY - "Colorado" is also a well-defined area, whereas "Rocky Mountain" is less defined.

- NV0N-Joey - no really board, meant to be an inclusive org, we'd bring it here to get a vote on it
 - we'd love to have input on it
- M2B2-Nate: Volunteering for anything
 - created new channel for #call-for-volunteers
 - Could be a lead in your region for organizing meetups for example, or guidance on network config
 - M2B2-Nate - its important to document volunteer opportunities
- Joey-- denvermesh-client-client **Excellent demo**
 - works on Mac Linux
 - Nodes, DM & chat, config, Map, telemetry, Admin.
 - MQTT is not yet implemented
 - Eventually, possibly including reticulum and MeshCore as an all inclusive client
 - located in DenverMesh GitHub Repositories

8. Adjournment

Next Meeting: [To Be Determined]

Adjourned at: [20:46].

Submitted By: Andrew Himelstieb [Andrew-KFØUFO]

****Please be sure to see the #town-hall-chat channel, and follow the posts during the time & Date of the Meeting for any side discussions, or anything missed in the notes (Various Links, videos, images, etc).**
